INTRODUCTION

Guru Angad Dev Veterinary and Animal Sciences University (GADVASU) started functioning on 21st April, 2006 at Ludhiana, as per Punjab Act no. 16 of 2005 to serve the society by promoting the livestock production, health and prevention of the diseases through integrated troika of teaching, research and extension programmes. The University was established with the following goals and objectives:

- To provide adequate supply of trained veterinary, dairy and fishery professionals including Master's and Doctorate level specialists capable of handling livestock health and production aspects according to the needs of the State Government and allied agencies.
- To undertake research work in selected areas and wherever applicable following multi-disciplinary approach.
- To provide opportunities for continuing professional education in veterinary and animal sciences.
- To provide consultancy and specialist services to livestock owners, government, semi-government and allied agencies.
- To run "Referral" hospital for specialized treatment of the livestock patients and to provide clinical training to the students.
- To provide technical expert opinion to different government and other agencies.
- To foster faculty development by providing them opportunities to participate in appropriate training programmes, conferences, workshops, seminars, symposia etc. and avail opportunities in exchange programmes.
- To encourage cooperation and collaboration with other departments, colleges, universities and industries both national and international.

There are three constituent colleges, viz. College of Veterinary Science, College of Dairy Science & Technology and College of Fisheries, imparting undergraduate and postgraduate teaching. Besides, the university has established School of Animal Biotechnology and School of Public Health & Zoonoses to generate scientific expertise and address various health and environment related issues in congruence to "One Health Concept". Three Regional Livestock Research & Training Centres at Kaljharani (Bathinda), Talwara (Hoshiarpur) and Booh (TaranTaran) and three Krishi Vigyan Kendras at Booh (TaranTaran), Handiaya (Barnala) and Mazri (Mohali) have been established to cater to the area specific requirements of the livestock sector.

Admission to the various undergraduate courses of the university is made on the basis of merit in the Common Entrance Test conducted by the university. Candidates with 10+2 in medical stream are eligible for admission in the College of Veterinary Science and College of Fisheries while those from 10+2 non-medical stream are eligible for admission in the College of Dairy Science and Technology. Admission to the postgraduate programmes is based on the merit (OCPA/OGPA) in the preceding degree program (80% weightage) and an interview (20% weightage).

1. College of Veterinary Science

The College of Veterinary Science was set up in 1969 as a constituent college of Punjab Agricultural University, Ludhiana. Currently it is a part of Guru Angad Dev Veterinary and Animal Sciences University. The college was created to be a centre of regional, national and international excellence in teaching, research and learning in animal health and production. It carries out teaching, research and extension education programs pertaining to livestock production and health so as to steer the state into an era of "White Revolution".

The college is recognized by the Veterinary Council

of India and has been accredited by the Indian Council of Agricultural Research (ICAR) first in the year 2004 and later on 8th March, 2013 for next five years. The Minimum Standards of Veterinary Education Degree Course (B.V.Sc. & A.H.) Regulations, 1993 of Veterinary Council of India (VCI), subsequently revised in 2008, have been implemented in the College. External examination system for B.V.Sc. & A.H. programme was introduced from the year 1998 onwards.

College of Veterinary Science has 17 departments having excellent laboratory facilities and infrastructure for the undergraduate and postgraduate teaching and research. There is a well equipped Teaching Veterinary Hospital to cater to the needs of large and small animal health care. In addition, the college also has an elite dairy herd and poultry farm. Two ICAR Centres of Advance Faculty Training in the Departments of Veterinary Surgery & Radiology and Veterinary Gynaecology and Obstetrics exist in the college.

The University has established School of Public Health and Zoonoses, which has the mandate for teaching and research on diagnostic and prevention of zoonotic diseases; food safety and quality control; environmental hygiene and pollutants; and food borne pathogens and their toxins. The School has well equipped laboratories for Residue Analysis, Zoonoses, Food safety and quality control, Water testing and Brucellosis diagnostics.

The college offers the following programmes of study:

B.V.Sc. & A.H. (5 years)
M.V.Sc. (2 years)
Ph.D. (3 years)

The program leading to the award of the B.V.Sc. & A.H. degree is designed to equip graduates with the knowledge and skills essential for a career in Veterinary Science. The program is divided into three phases. The pre-clinical phase, provides education in basic sciences such as Anatomy, Physiology and Biochemistry, as well as in Animal Husbandry through intramural learning. The para-clinical phase, includes bridging subjects between the pre-clinical and clinical phases, such as Pathology, Microbiology, Parasitology and Pharmacology. The clinical phase includes Surgery, Medicine and Gynaecology. At the end of course

work (9 semesters), the students undergo a compulsory rotational internship programme of six calendar months in Diagnostic Laboratories and Clinical Practice and Animal Production Technology.

The course curriculum and duration of course for B.V.Sc. & A.H. may change for the students getting admitted during the academic session 2016-17 subject to changes in the Minimum Standards of Veterinary Education- Degree Programme (B.V.Sc. & A.H.) as per the Regulations advocated by the VCI.

The successful completion of B.V.Sc. & A.H. programme entitles the graduates to seek mandatory registration with the Punjab State Veterinary Council / Veterinary Council of India as registered veterinary practitioner.

2. College of Dairy Science and Technology

With approximately 3% of the country's milch animal population and contribution of about 10% to the total milk production, Punjab stands at 5th place in the country. Currently only about 12-14% of milk is processed in the organized sector. The consumption of milk and milk products is expected to grow at 7 percent per annum against 4 percent growth in production.

Looking at the potential and demand of the dairy industry, the College of Dairy Science and Technology was established in the year 2008 to produce quality human resource through its undergraduate/postgraduate degree programmes, to develop new knowledge and technologies in the field of dairying, to conduct trainings and vocational courses for dairy farmers, entrepreneurs and persons from dairy industry, to provide consultancy services to dairy farmers, industry, and various agencies involved in dairy development programmes and to liaison with various dairy development organization(s). The college follows the course curriculum as per the approved programme by the IV Dean's Committee set up by the Indian Council of Agricultural Research, New Delhi.

The college is having five departments viz. Department of Dairy Technology, Department of Dairy Engineering, Department of Dairy Economics and Business Management,

Department of Dairy Chemistry and Department of Dairy Microbiology.

The college offers the following programmes of study:

B.Tech. (Dairy Technology) (4 years)
M.Tech. /M.Sc. (2 years)

The college is having well equipped laboratories to conduct practical under UG and PG programmes and to carry out research activities. The college has various laboratories viz. dairy technology, milk quality evaluation, dairy microbiology having facilities of molecular biology, dairy chemistry, packaging, thermodynamics, heat and mass transfer, food engineering, dairy engineering, the facilities for fluid mechanics, workshops and engineering drawing. A centralized computer laboratory with facilities such as AutoCAD, RSM and other analysis software is available with the college. The college has well-equipped lecture halls with latest audio visual teaching aids.

The college has number of research projects from various funding agencies such as DST, UGC, NABARD and schemes under RKVY. Under the projects various technologies related to milk handling and processing has been developed. The college has successfully transferred one of the technology to industry for its commercialization and popularization.

Experimental dairy plant is one of the excellent features of the infrastructure created in the college and is having the milk handling capacity of 5000 litre per day. The main objectives is to provide best infrastructure for the practical and hands-on training of undergraduate & postgraduate students and to undertake Research and Development work by the scientists for scaling up of the laboratory concepts of newly developed technologies to the pilot/ semi-commercial scale.

3. College of Fisheries

Since its establishment in 2008, College of Fisheries has registered commendable academic growth and has made significant contributions in the development of the fisheries sector of the State through producing quality skilled graduates and postgraduates in Fishery Sciences, generating need based technologies for vertical as well as

horizontal expansion of aquaculture sector and transfer of technologies to the farmers through an efficient 'Lab to Land' extension programme. Fisheries sector is providing food security and employment opportunities to millions of people globally. Next to China, India occupies 2nd position in global fish production from inland resources with a commendable annual growth rate of over 6%. After green and white revolution, Punjab is also moving very fast towards 'Blue Revolution' with substantial resources to tap the potential.

The college offers the following programmes of study:

B.F.Sc. (4 years)
M.F.Sc. (2 years)
Ph.D. (3 years)
Diploma in Inland Fisheries (1year)

The college has four departments viz. Department of Aquaculture, Department of Fisheries Resource Management, Department of Harvest and Post-Harvest Technology and Department of Aquatic Environment. The College is well equipped with an instructional cum experimental farm spread over 3 ha of land area for UG and PG teaching, demonstrations and research, including nursery ponds, rearing ponds, stocking/production ponds, demonstration ponds, integrated models, modern indoor as well as outdoor hatcheries for carps, catfishes and ornamental fishes, poly houses for overwintering of cold sensitive species, aquarium house, aquatic plant rearing unit, feed mill, raceway etc. College also has excellent laboratories equipped with modern instruments and facilities for advanced teaching and research. The curriculum of all the UG and PG/Ph.D. degree programmes is as per ICAR recommendations, which is delivered to the students through various efficient learning tools, to inculcate in-depth knowledge and skills in them for professional efficiency.

The college has developed many region specific need based technologies for sustainable aquaculture productivity, with special reference to small and marginal farmers. The college has motivated many farmers to take up fish farming as a remunerative enterprise for diversification.

4. School of Animal Biotechnology

During the last three decades, molecular biology and biotechnology have emerged with extensive applications in animal husbandry, medicine, industry and environmental sciences. Recognizing the immense potential of biotechnology in farm animal sector, GADVASU established the Department of Animal Biotechnology in 2008. Later it was upgraded to the School of Animal Biotechnology in 2010 with the mandate to integrate and strengthen the research in various facets of molecular biology to improve the livestock productivity and health.

The main objectives are to generate scientific expertise and human resource in various facets of animal biotechnology, to develop specialized and state of art facilities for research in cutting edge fields of biotechnology and to undertake research in different areas of molecular biology and biotechnology for improving animal health and productivity.

The school offers the following programmes of study:

M.V.Sc./M.Sc. (2 years)
Ph.D. (3 years)

M.V.Sc./M.Sc. and Ph.D. programmes in Animal Biotechnology/Biotechnology follow the course curriculum as recommended by the Indian Council of Agricultural Research.

The school has DBT funded HRD programme for admission in which both Veterinary and Non-Veterinary graduates are admitted through All India Entrance Test.

5. Veterinary Polytechnic

University also runs a two year programme leading to award of Diploma in Veterinary Science and Animal Health Technology at Veterinary Polytechnic, Kaljharani, Bathinda; for which there is a separate Prospectus and academic schedule.

Medium of Instruction

Instructions in all courses are carried out in English language.

CHAPTER II

SCHEDULE OF COMMON ENTRANCE TEST/COUNSELLING/ INTERVIEW

A. Schedule for Common Entrance Test/counselling for B.V.Sc. & A.H./B.F.Sc./B.Tech.(Dairy Technology) programme(s):
CET-GADVASU will be held on 16th June, 2016 from 10.00 am onward.

1st Counselling

Programme	Category (ies)	Rank	Date	Time	Venue

FORMULA FOR INTERCONVERSION OF OGPA/OCPA AND AGGREGATE PERCENTAGE OF MARKS UNDER THE TRADITIONAL SYSTEM OF EXAMINATION

The following formulae have been adopted by the University to determine the equivalence of each grade point average from 1 to 4/overall credit point average from 1 to 10 under the semester system in terms of the percentage of marks awarded under the traditional system of examination.

1. For conversion of Overall Credit Point Average (OCPA) into percentage of marks:

$$Y = 10Z$$

Where Y = Percentage of marks in the traditional system

Z = Overall Credit Point Average (OCPA) in 10.00 point system of evaluation.

2. For conversion of Overall Grade Point Average (OGPA) into OCPA:

(a) For Undergraduate programme

$$Z = (50 - 10X + 5X^2) / 10$$

Where Z = OCPA in 10.00 point system of evaluation

X = OGPA (Maximum=4.00) in the letter grade system of evaluation.

(b) For Postgraduate Programmes

$$Z = (25X - 15) / 10$$

Where Z = OCPA in 10.00 point system of evaluation

X = OGPA (maximum=4.00) in the letter grade system of evaluation

3. For conversion of Overall Grade Point Average (OGPA) into Percentage of marks for B.V.Sc. & A.H. as per VCI guidelines

Percentage of Marks = OGPA x 100, divided by 10
