- A candidate holding an UG degree in a particular discipline may be eligible for one or more PG programmes. In such a case, he/she can take up the Entrance Examination in his/her own UG degree discipline. However, the candidate will be appropriately placed in the merit lists of the PG programmes for which he/she has applied after applying the Normalization Procedure on the entrance score secured by the candidate.
- Merit ranking for admission to various M.Tech. Programmes will be prepared on the basis of marks obtained in the entrance examination marks obtained after the normalization procedure, whichever is applicable.
- MCA candidates need to take the Entrance Examination in Computer Science and Engineering discipline only.
- The M.Tech. specialization and the corresponding UG branches in which the Entrance Examination need to be written is given below:

  EXPLANATION: Under the method of normalization, the highest Entrance Mark obtained by the candidates of various disciplines, shall be equated to 100 and the relative marks of other candidates in that discipline, shall be determined accordingly.
  ILLUSTRATION: If the highest mark secured by a candidate in CSE is 284 out of 360, then, the mark will be equated to 100, and then, 260 marks secured by another candidate will be considered to be equal to 91.549 marks as arrived at as given below: [(260/284) *100].
- After normalization of marks of different disciplines, the "normalized marks" obtained shall be merged into a common merit list for a particular PG programme.
- Tie, if any, will be resolved by considering the CPGA/aggregate marks of the qualifying examination.

6.2.3 M.Sc. in Materials Science & Technology
