## CHAPTER – II

### MORE ABOUT THE WRITTEN TEST

#### 1. SYLLABUS for DIPLOMA CET - 2017

The broad outline syllabus for the Diploma Common Entrance Test for B.E/ B.Tech Courses is detailed below:

1. Applied Science.
2. Applied Mathematics.
3. Equivalent Engineering Group for the Diploma Course Studied.

The complete syllabus for the Diploma Common Entrance Test is available on the KEA Website <http://kea.kar.nic.in>.

#### 2. DURATION, QUESTION PAPER AND OMR ANSWER SHEETS

The DIPLOMA CET-2017 will be held in one session, conducted for 180 marks with 3 hours (180 minutes) duration. Additional 25 Minutes will be given for filling Name, Admission Ticket No. Version Code and Serial Number in the OMR Answer Sheet and Question Booklet. The question paper will be of (Objective) Multiple Choice type. The question paper will be in different versions. Each question will have four different options. Each question will carry ONE mark.

#### 3. Question Paper Pattern:

Duration of the Test: 3Hrs

Maximum Marks: 180

Sl.No	Subject	Marks	Remarks
01	Applied Science.	40	Common for all the Engineering Group Codes
02	Applied Mathematics	40	
03	Engineering (All Courses)	100	Refer Schedule-I for Engineering Subjects & Corresponding Group Code
Total		180	Objective Type (Multiple Choices) Questions.

Books / Tables / Mechanical Charts / Programmable Electronic Aids / Cell Phones are not permitted in the examination hall, Possession of these items in the examination hall is considered as malpractice and disciplinary action will be taken by the concerned examination conducting authorities.

All questions are compulsory. In other words, there is no choice among questions. Candidate is expected to attempt all the questions, in order to obtain maximum marks. THERE WILL BE NO NEGATIVE EVALUATION WITH REGARD TO WRONG ANSWERS BUT MARKS WILL NOT BE AWARDED IN RESPECT OF MULTIPLE ANSWERS. The version code of the question paper will be boldly printed on facing sheet of the question paper.

**COMPULSORY:** Initial TEN minutes will be given for the candidates to write / shade the particulars such as Name, Diploma CET Number, Version Code and Serial number of the question booklet on the OMR answer sheet in the boxes provided. The candidates who do not write / shade the correct Diploma CET Number and Version Code on the OMR answer sheets, the OMR answer sheets of such candidates will not be scanned and will not be assigned any rank.

The candidates will have to mark correct options on the Optical Mark Reader (OMR) answer sheet, which will be supplied at the beginning of the test.

Among the four options provided against a question, only one answer will be correct. The candidate should mark the correct answer by completely shading only one circle against a question number, **using BLUE or BLACK ink ball point pen**. More details about precautions to be taken while filling the particulars on OMR answer sheet is given below. The OMR answer sheet comprises of two sheets. The top sheet will be used for the purpose of marking correct answers and later scanning & evaluation and the bottom sheet will be returned to the candidates after completion of the test. The bottom sheet is coated with a special kind of chemical which acts as Carbon. When the candidate fills the circles on the top sheet, the pressure on the bottom sheet will automatically create a replica of the top sheet.

The candidates are required to **COMPULSORILY AFFIX THEIR LEFT HAND THUMB IMPRESSION** in the space provided on the bottom portion of the OMR answer sheet (top sheet) with the ink-pad provided by the room Invigilator, after completion of the test. However, they need not affix their thumb impression on the replica (bottom sheet) of the OMR answer sheet. Thereafter, the invigilators will detach the bottom sheet from the top sheet at the perforations and hand over the bottom sheet (replica) to the candidates and they are allowed to carry the same with them. The top sheet will be retained by the invigilator for returning the same to the Deputy Chief Superintendent of the examination center and in turn to KEA.

**NOTE:** The OMR answer sheets in respect of all the candidates who have affixed their left hand thumb impression will only be scanned and the results in respect of such candidates will be published. The OMR answer sheets in respect of candidates who have not affixed their left hand thumb impression, for any reason, will not be scanned. Also, the results in respect of such candidates will not be published.

#### **4. Optical Mark Reader sheets as Answer Sheets**

The need for the replica has compelled us to design OMR sheet in such a way that all the information and the answers are marked only on one side. The top portion of the sheet is meant for furnishing the particulars about the candidates such as the Name, DIPLOMA CET Number, Version

code and serial number of the question booklet. The bottom portion is meant for marking the answers, affixing the signature of the room Invigilator & candidates and also for affixing the Left Hand Thumb Impression of the candidate. The space meant for the subject would have been pre-marked. The square blocks in each item should be filled by the candidate in capital letters and numbers. The circles corresponding to the letters or numbers are meant to be completely shaded using blue or black ink ballpoint pen only.

#### **5. Why Ball Point Pen?**

Remember, we are allowing the candidates to carry home a replica or facsimile of the OMR answer sheet and the OMR answer paper comes in a set of two sheets. When you shade the top sheet, the pressure will create a dark mark on the bottom sheet on the corresponding circle. If a pen with a nib is used, the pressure on the top sheet will not be sufficient to activate the chemical on the bottom sheet. On the other hand, a ballpoint pen exerts sufficient pressure to convert the bottom sheet chemical into a dark spot. That is why we want you to use a blue / black ink ballpoint pen only.

#### **6. Important precautions to be taken while writing / shading Top portion of OMR Answer Sheet**

The initial TEN minutes will be given to a candidate, for writing / shading the particulars on the top portion of the OMR answer sheet, wherein the candidates are required to write their Name within the boxes, write their Diploma CET Number in the boxes and shade the respective circles, write the Question booklet version code / serial number in the boxes and shade the respective circle in the required manner. . Of the five items, entries pertaining to 'Name', 'Diploma CET Number' and 'Question booklet Version code' are very crucial ones. Therefore, candidates are advised to take extra precaution while writing and shading these three items accurately on the top portion of the OMR answer sheet. Important precautions to be taken while shading answers on bottom portion of OMR Answer sheet.

After the initial TEN minutes 180 minutes will be given to a candidate for shading the answers on the bottom portion of the OMR answer sheet. Against each question number, four circles will be provided corresponding to four options of the question paper. The candidates are required to shade only one circle corresponding to the correct answer.

The scanner is so sensitive to black and blue ink shades that even a slight residual ink mark or an unintended ink dot within a circle on the OMR answer sheet will be taken by it, as filled / shaded, at the time of scanning. Consequently, the candidate may lose marks. Therefore, please do not make any stray pen marks on the OMR answer sheets. As the scoring done by the scanner and the computer in tandem is final, a plea for erasing or neglecting the ink mark on a circle cannot be entertained. Therefore, candidates are advised to take extra precaution while shading the circles on the bottom portion.

## 7. THINK BEFORE YOU INK!

Once you darken a circle, there is no way to erase or to remove it. That way, your decision about a correct answer will be final. The invigilator will not permit you to use marker, white fluid or any other device to hide the shading already done and you will not be supplied with one more set of OMR sheet. If you spoil a sheet in your attempt to rub off the shading done on a circle, you may ruin your opportunities. If two circles are shaded in a row and even if one of the circles is partially rubbed off, the scanner will take it as a multiple attempt. Therefore, think twice before you shade a circle with ink. Darken only one circle for each question as shown against the CORRECT METHOD.

## NOTE ON MOCK ALLOTMENT

After the entry of options are completed, based on the real data mock allotment will be carried out and the allotment status will be hosted on the KEA website for the information of the candidates. Two days time will be given to the candidates to verify the status of their allotment. Here, the candidate after ascertaining college and course allotted, if he / she wants to change / modify his / her options can do so within the stipulated date and time. Then based on the modified entry of options the real allotment will be carried out.

## WHY DO WE CONDUCT MOCK ALLOTMENT?

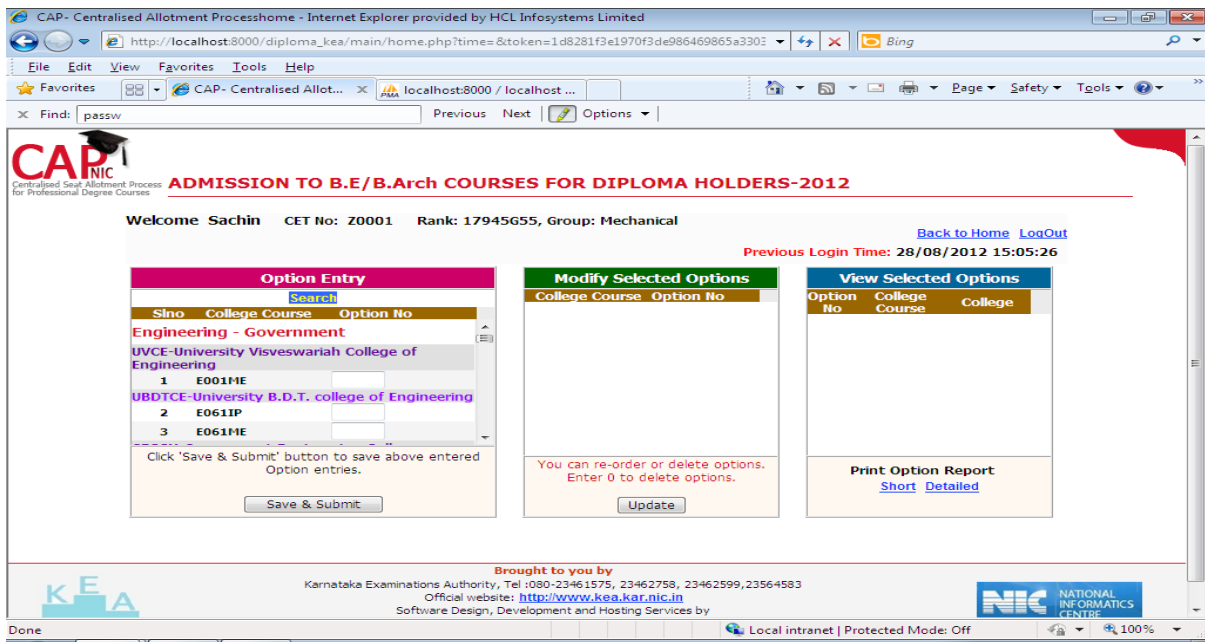

Based on the Mock Allotment a candidate can know his / her status of allotment as per his / her priority of options. This gives a clear view to the candidate to change or retain the entered options. Candidate can come to know that the other candidate with lower merit has got seat which he was eligible but for his not entering that option. Therefore, candidates will be given one more choice to change the priority of options, deletion of or addition of options.

Due to change in the options by candidates after Mock Allotment, one may not get the same seat in the real allotment as was allotted in the mock allotment.

## Candidate's Options Entry

(Your Priority Number (or your ranking for your seat option))

Candidates have to enter priority which is given in Numbers. Your priority number starts from 1 and ends in 999 against each course of particular college of specific course stream. The priority number is unique number for each course of all Streams.

The following example table will give an idea of entering options, disciplines, and course details.

Course Stream	Course	Priority of Option
Engineering	E031EC	1
Engineering	E004TC	2
Engineering	E001EC	3
Engineering	E001TC	4
Engineering	E002EC	5
Engineering	E003EC	6
Engineering	E003AR	7
Architecture	E031AR	8
Architecture	E030EC	9

The above table is only indicative and no inference can be drawn from it.

### HOW TO GET THE COLLEGE WISE AND COURSE WISE LIST?

#### Step 1:

- Go to Home Page. Click the Link **“Candidate's Option Entry” College wise and Course wise list**. After entering the basic details, candidate will find the following screen.

- Click College List Menu on the right top corner of the home page to view the college list.

- Select any one of three colleges list
- College list will be loaded in the new tab sheet.
- From One College list there is a link to go to Other College list and Course & Description.

**Step 2:** Candidate can apply for more than one discipline by selecting and giving the options numbers in sequential manner

**Step 3:**

- Courses and Colleges will be listed for particular selected course type
- Enter the option in the box by giving numbers 1, 2, 3, 4.... depending on the priority of the course and college. **(The Option Number is unique for each course of all Course Stream)**

**Step 4:**

- Click **“Save”** button  
Option will be loaded in the sequential order in **“Selected view Option”** window.

**The above table is only indicative for the information of the candidate and no inference shall be drawn in this regard.** There is no limit for entry of options and a candidate can enter any number of options as he / she wishes to exercise on his / her own priority. Candidates are advised to enter more number of options to avoid the disappointment of not securing a seat. Any candidate has to enter the option in the priority as he / she desires. Candidates are advised to do thorough home assignment regarding the choices which they want to exercise, the college which they prefer, the course which they are interested to join etc. It is better to download the option entry sheet and discuss the same with your parents / guardians / mentors etc before actually entering same in the system. Your interest in the discipline, college infrastructure, course, distance from your place, availability of hostel etc may be some of the issues to guide your choices of options and advice of your parents. As it will save your time and minimize your chance of making mistake in option entry on the online option entry form. The allotment will not proceed to the next rank candidate till the list of your options is completely searched for availability of a seat. The candidate may change the options as many times as he / she desires before the last date and time notified for entry of options.

**Options recorded in the server on the last day and time of the notified schedule in each round will be frozen and only the frozen options will be considered for allotment of seats.**

**NOTE:** Candidates are advised not to start entering the options directly on the online option form on the internet without preparatory work at home on choice of options, as it leads to commission of mistakes / wrong entries / wrong order of preferences. In order to avoid last minute rush candidates are advised not wait till the last day and KEA will not be responsible for any network related problems.

### **FLOW CHART FOR FIRST ROUND**

#### **1<sup>st</sup> Phase of allotment:**

1 <sup>st</sup> Phase	:	i) Allotment of seats to all the disciplines as per the seat matrix issued by the Government. (a) Physically Disabled candidates (b) NCC candidates (c) Sports Candidates ii) Allotment of seats to Engineering iii) Allotment of seats to Architecture
-----------------------	---	--

Based on the merit and priority of options the first phase of allotment begins. The computer will first allot the seats in the above mentioned order and continues in the same order. While allotting the seats in the 1<sup>st</sup> Phase at any stage, the seat allotted if any, will automatically get cancelled upon allotment of a seat in the subsequent discipline and such cancelled seat will be considered for allotment of a seat in the next iteration.

Therefore, multiple iterations may take place in the 1<sup>st</sup> Phase. The computer will stop the allotment only if the last seat is allotted or when it reaches the last rank in each discipline. That means the candidates will always be climbing upwards both in options and in roster. The order of allotment as shown above will get repeated in the 1<sup>st</sup> phase until there is no change in the allotment of any candidate.

## 2<sup>nd</sup> Phase of allotment.

After allotment of seats in the first phase, action will be taken to allot the seats for the 2<sup>nd</sup> phase allotment of seats. After completion of the 1<sup>st</sup> Phase of allotment of seats, the seats that remain unfilled under all the Rural and Kannada medium quota of the reserved categories will be converted to General of the respective reserved categories (SCR & SCK to SCG, STR & STK to STG, 1R & 1K to 1G, 2AR & 2AK to 2AG, 2BR & 2BK to 2BG, 3AR & 3AK to 3AG, 3BR & 3BK to 3BG) before the commencement of 2<sup>nd</sup> Phase and offered ONLY to the reserved category candidates including GMR & GMK category candidates. Consequential vacancies which arise during this allotment of seats will remain in the same category and will be offered to the same reserved category candidates.

In this phase only reserved category candidates will be considered for allotment and GM candidates will not be considered. Further, GM seats will also be not considered for allotment of seats.

### IMPORTANT:

This procedure for conversion of seats will be adopted before the commencement of 2<sup>nd</sup> Phase of allotment. Further, if the reserved category candidates are allotted with a **General Merit** / respective reserved category seat during the 2<sup>nd</sup> phase of allotment, then a reserved category seat becomes vacant. Such seats are treated as '**CONSEQUENTIAL VACANCIES**'. These consequential reserved category vacancies that arise during the 2<sup>nd</sup> phase of allotment will remain under the same categories and will be offered only to the candidates belonging to the same reserved categories.

**NOTE:** All GM consequential vacancies which arise in this phase will be considered for allotment in the 3<sup>rd</sup> Phase of allotment.

In this phase also, the order of seat allotment remains same which is as follows:

- |                       |   |  |
|-----------------------|---|--|
| 2 <sup>nd</sup> Phase | : | i) Allotment of seats to all the disciplines as per the seat Matrix issued by the Government.<br>(a) Physically Disabled candidates<br>(b) NCC candidates<br>(c) Sports Candidates<br>ii) Allotment of seats to Engineering<br>iii) Allotment of seats to Architecture |
|-----------------------|---|--|

Based on the merit and priority of options the second phase of allotment begins. The computer will first allot the seats in the above mentioned order and continues in the same order. While allotting the seats in the 2<sup>nd</sup> Phase at any stage, the seat allotted if any, will be released automatically upon allotment of a seat in the subsequent discipline and such released seat will be considered for allotment of a seat in the next iteration.

Therefore, many iterations may take place in the 2<sup>nd</sup> Phase also. The computer will stop the allotment only if the last seat is allotted or when it reaches the last rank in each discipline. That means the candidate will always be climbing upwards both in options and roster. The order of allotment as shown above will get repeated in the 2<sup>nd</sup> Phase until there is no change in the allotment of any candidate.

### **3<sup>rd</sup> Phase of Allotment:**

After the allotment of seats in the second phase of allotment, the seats that remain unfilled under various reserved General categories such as SCG, STG, 1G, 2AG, 2BG, 3AG, 3BG, GMR and GMK, along with unfilled special category seats, if any, will be converted to the General Merit category and offered to GM candidates along with all other reserved category candidates in the 3<sup>rd</sup> Phase of allotment. However, the consequential Rural and Kannada medium reserved category seats that arise during the 3<sup>rd</sup> Phase of allotment and if remains un-allotted then the same seat will be converted to the General of the respective reserved categories only if there are no seats in the respective general category and will be made available for allotment only to the respective reserved category candidates during 3<sup>rd</sup> Phase of allotment.

In this round also, the order of seat allotment remains same which is as follows:

- |                       |   |  |
|-----------------------|---|--|
| 3 <sup>rd</sup> Phase | : | i) Allotment of seats to all the disciplines as per the seat Matrix issued by the Government.<br>(a) Physically Disabled candidates<br>(b) NCC candidates<br>(c) Sports Candidates<br>ii) Allotment of seats to Engineering<br>v) Allotment of seats to Architecture |
|-----------------------|---|--|

All the candidates will be considered for allotment of seats in this iteration. Before commencement of 3<sup>rd</sup> phase the computer will display the number of seats that got allotted in each discipline, total number of candidates allotted and the number of seats remained unfilled and number of candidates un-allotted.

While allotting the seats in the 3<sup>rd</sup> Phase at any stage, the seat allotted if any, will be automatically released upon allotment of a seat in subsequent stage and such released seat will be considered for allotment of a seat in the next iteration.

Based on the merit and priority of options the third phase of allotment begins. The computer will first allot the seats in the above mentioned order and continues in the same order. While allotting the seats in the 3<sup>rd</sup> Phase at any stage, the seat allotted if any, will be released automatically upon allotment of a seat in the subsequent discipline and such released seat will be considered for allotment of a seat in the next iteration.

Therefore, many iteration may take place in the 3<sup>rd</sup> Phase also. The computer will stop the allotment only if the last seat is allotted or when it reaches the last rank in each discipline. That means the candidate will always be climbing upwards both in options and roster. The order of allotment as shown above will get repeated in the 3<sup>rd</sup> Phase until there is no change in the allotment of any candidate

**Speciality of 3<sup>rd</sup> Phase of allotment** is, after completion of last stage of allotment of seats, the seats remained unallotted if any, in any reserved category will be converted to GM automatically and will be offered to all the eligible candidates from 1<sup>st</sup> to last rank based on the priority of options entered. That means repetition of phase 3 allotment process will take place. Phase 3 allotment stops only when there is no seat in reserved category and no change in the allotment.

**Summary:**

This illustrates that at each stage, the options are getting shrunk before moving to the next stage, if seats are allotted. If seats are not allotted, the options list remains unchanged.

The seats which are returned back to seat matrix in the process of allotment stages will be allotted to the next candidate as per rank and options. This way there will be a number of iterations till the candidate gets the best seat of his choice governed by rank. This means, the system halts allotment when no seats are available for a candidate as per his options.

All the steps taken together as detailed above will form one round and the stages mentioned above, are known as iteration stage / phase. The iteration stage in each round will go on as long as the choice of the candidate is not fulfilled or the availability seat is not exhausted. In this way each candidate may get either a Medical seat or an Engineering seat or ISMH seat as per his/her rank and priority in the respective disciplines. However it is possible that if all seats are exhausted then a candidate might not be allotted a seat at all. Therefore it is very important to candidates to give their options very carefully and after considerable thought and after discussing with their parents and elders. If by chance the options given by the candidate is not well thought he may lose a seat in a good college as he may not have given option for that particular college or would have given lower options. For example a candidate is interested in college A, but by mistake or by oversight he has given a lower preference for that college and has given higher preference for some other college. The computer then will allot a seat as per his rank and as per his higher priorities. In this way he may tend to lose a seat in the college of his choice merely because he has not given a correct priority of options.

The iteration stage starts with Medical/Dental seats, and goes on till the Medical seats is exhausted or choice of candidate is exhausted. Similarly in the 2<sup>nd</sup> iteration stage the choice of the candidates in ISMH discipline is considered and in the 3<sup>rd</sup> iteration stage the choice of candidates in Engineering is considered and finally the 4<sup>th</sup> iteration stage the choice of the candidate for Architecture discipline is considered. If the candidate has given his first choice as Engineering and 2<sup>nd</sup> choice as Medical then in the 1<sup>st</sup> stage of iteration the Medical seat at option no.2 will be considered and a Medical seat will be allotted to him as per his priority and rank if seats are available. So in the 1<sup>st</sup> iteration the candidate will get a Medical seat and immediately in the Engineering iteration stage the candidate will be allotted the Engineering seat as per his rank and priority by cancelling the Medical seat as the first priority is engineering. The Medical seat so cancelled will be added to seat matrix of the same college and category and allotted to the next candidate as per his/her rank and priority. Therefore the candidate ultimately gets the seats of his choice/priority. In the final analysis the candidate gets the best of the best seats of his choice.

After the entire iteration of all the discipline in all the three phase is complete the final list will be announced on the website and this is known as the First Round. Therefore, many iterations may take place in one round as per the choice of the candidate and as per the availability of seats. The candidate can track down the movement of seats in the different iteration stages to satisfy himself that the best of the choices is allotted to him. Virtual tracking of the process of allotment by the computer can be viewed by the candidate after

allotment. This ensures transparency in the entire allotment stage and KEA is known for its motto **Trust Through Total Transparency**. The final list of the First Round will be hosted on the website, in the Helpline Centres and individual allotment will be sent by SMS, e-mail and the candidates are requested to note the allotment of seats to them in the First Round. The candidate here has 4 choices. The choices are: -
