College & P.G. Institute**

DM – M.CH Course -2015

Sri Aurobindo Medical College & P.G. Institute, Indore

Over the years SAIMS has become synonymous with quality education and established itself as one of the top most medical colleges in central India.

We aspire to groom finest clinicians, optimally prepared to perform as highly skilled medical professionals. We are extremely growth oriented and keep no stone unturned to upgrade ourselves.

Mohak is our Hi-tech superspeciality wing. Whether you are a patient or a visitor at our hospital, you can expect that over 2500 dedicated employees, physicians and volunteers will be working tirelessly to ensure that you receive excellent care in a safe and comfortable environment.

As a leading healthcare provider in Central India, we provides quality, compassionate and cost-effective services that continually meet and exceed our patient needs.

Department of Urology & Nephrology

The Urology & Nephrology Division at SAIMS is enthusiastic about its tripartite mission of patient care, education, and research. The division provides all of the inpatient and outpatient Urology & Nephrology care to patients at SAIMS, including all services for a kidney transplant program.

Nephrology, Urology and Kidney transplant department of SAIMS hospital is amongst one of the largest upcoming center. The Nephrology department is executing more than 350 haemodialysis per month.

Facilities available in department of Nephrology & Urology :

- The unit operates 24x 7 and provides the following services using the latest equipments:
- Dialysis Intensive Care unit with 14 HD, ARRT with SLED & CRRT with state of art, world class Renal Transplant Unit, TUR and all other Uro-Nephro surgical procedures & exclusive Uro-Nephro OT complex.
- Ultra sound machine
- 64 slice CT Scan Machine
- MRI 1.5 Tesla
- Most modern invasive radiology suite
- A mobile USG and X ray unit
- Extracorporeal Shock Wave Lithotripsy (ESWL) - stone lith 5 electrohydraulic lithotripter.
- Flexible ureteroscopy
- Auriga 50 Watts Holmium laser for intracorporeal laser lithotripsy and HOLEP(holmium laser enucleation of prostate)

Department of Gastroenterology

Department of Gastroenterology is located in SAIMS campus. It comprises a team of highly qualified and dedicated gastroenterology consultants, resident doctors, endoscopy technicians and nursing staff. Department is one of the best centre of Gastroenterology in central India and provides high quality services at affordable cost.

The department has good O.P.D. & I.P.D. patient inflow which shows the high degree of patient care at the institute. The department has state of art endoscopy suite comprising all latest endoscopy machines including Gastrosopes, Colonoscopes and ERCP scopes. It is also a matter of pride that the Institute has one of Central India's latest Endoscopic Ultrasound machine which gives a distinct advantage to the hospital. Our team comprises highly qualified and dedicated consultants, resident doctors, endoscopy technicians and nursing staff. In addition we get good support from departments of radiology, pathology, microbiology and our genetic laboratory. The department carries out a variety of research activities.

Facilities available in department of Gastroenterology :

ERCP, EUS, UGI, LGI, Capsule Endoscopy, Endo Bariatrics, Tumor NBI, Colonic And Upper GI Stenting, Special Simulators and Models For Postgraduates For Colonoscopy, Gastroscopy , ERCP Based Intervention, special work In Hepatology with Future Plans To shortly Begin Liver Transplant Program.

Department of Pediatric Surgery

PHILOSOPHY

We Believe That raising a kid is a rewarding and challenging experience.

We Strive to :

- Provide quality pediatric surgical care for a wide range of patient's needs
- Proper counseling and guidance
- Best surgical treatment
- Warmth and compassion to the kid
- We are in the process of providing and making ideal environment for the kids, in intensive surgical care units, inside the operation theatre, with dedication to advancement in surgical and clinical care services and technology. Our department is committed to providing infants, children and adolescent with the most advanced pediatric surgery care.

Departmental Facilities :

- Paediatric surgery ward with great ambience for kids
- Paediatric surgery NICU & PICU, equipped with modern pediatric ventilators, Incubators, syringe pumps & multipara monitors.
- Properly trained and adequately manned ICU and ward.
- Fully equipped pediatric surgery operation theatre with
 - Induction room
 - Laminar flow
 - Fully automatic paediatric surgery operation table
 - Heating mattress to keep neonates warm during surgeries
 - Fluid warming devices.
- Pediatric anaesthesiologist, dedicated to paediatric patients
- Rich departmental library with collection of latest textbooks and journals
- Pediatric & infantile minimal access surgery (laparoscopy and Thoracoscopy)
- Pediatric endourological procedures with LASER, PCNL, ESWL and state of art gazette
- Upper & Lower gastrointestinal endoscopy in infants & children.
- Fibre optic bronchoscopy in neonates & infants.

Department of Neurosurgery Surgery

Department of Neurosurgery is a dedicated team of doctors with the latest technology which provides a comprehensive and multi-disciplinary care for disorders of brain and spine. Led by team of highly qualified neurologists, neurosurgeons, intervention neuro-radiologist and other disciplines provide the best possible care for patients.

The treatment is based on protocols of transparent evaluation of outcomes which not only ensure appropriate patient management but also pave the way for an academic environment. The institute has facilities for emergency services for the management of acute neurological disorders, advanced neuro-imaging techniques (a 1.5 Tesla MRI, 64 slice CT scan, PET scan), dedicated neurosurgery and neurology ICUs. As we have the full range of treatment capabilities in Neurosciences, we can truly select what modality would be best for any given patient.

The key strengths of the department are:

- Dedicated multidisciplinary teams
- Highly qualified and experienced doctors
- State of art technology
- Protocol based treatment
- Advanced neuroimaging techniques
- Dedicated neurosurgery and neurology ICUs
- Emergency services
- Research labs

Department of Neurology

This forty bedded department is functioning since the year 2005, the department has dedicated 9 bedded Neurology ICU; and is armed with state of the art equipments like Video EEG, EMG, EEGs, to name a few of them. With the support of ultra-modern Neuro Radiology Services (equipped with Hi-end, Ultrafast 128 Slice CT Scan, Ultrafast 1.5 Tesla MRI Scan with TIM technology, Color Doppler and PET CT Scan), active cath lab, busy cardiothoracic and neurosurgery departments and very contemporary pathology and microbiology facility, this department is not only serving the health-service starved rural population of the region but is actively engaged in research work also.

The key strengths of the department are:

- Dedicated multidisciplinary teams
- Highly qualified and experienced doctors
- State of art technology
- Protocol based treatment
- Advanced neuroimaging techniques
- Dedicated neurosurgery and neurology ICUs
- Emergency services
- Research labs

Department of Medical Oncology & Surgical Oncology

Department of Medical Oncology & Surgical Oncology are multi-disciplinary team of oncologists & surgeons engaged in evidence based cancer medicine in a multi-specialty hospital and medical college, with special emphasis on culture specific care delivery, counseling and support. We train post graduate / post-doctoral physicians and surgeons in the art and science of evidence based multi-disciplinary cancer diagnostic, therapeutic and survivorship management.

The key strengths of the department are:

- State of the art kilo voltage based imaging and CBCT based image guided radiotherapy (IGRT) on the Varian DMX Linear Accelerator for targeted radiotherapy of cancers, with concurrent chemo-radiation, and HDR brachytherapy for cavitory cancers.
- Fully equipped Positron-Emission Tomography (PET) & advanced nuclear medicine- diagnostic and therapeutic management of thyroid and neuro endocrine /neural crest cancers.
- Brachytherapy HDR
- Facility of sentinel lymph node biopsy using gamma camera in addition to frozen
- Plans of starting endoscopic neck dissection (1st in India)

Department of Reproductive Medicine

Excellence

We believe that if a thing is worth doing, it is worth doing well. We have a special Quality cell to ensure that all our activities reflect our commitment to quality care.

Our IVF lab measures up to the stringent CAP standards for Reproductive laboratories and the Lab environment surpasses the European Union Directive for IVF labs.

Expertise

The knowledge and skill of the physician is of utmost importance in the success of the program. With few exceptions, no medical college in the country offers training in assisted reproduction and minimal access surgery.

Our specialist/faculties trained in the best Institute of the country and is the first in central India to hold a Subspecialty Qualification in Reproductive Medicine.

IVF Lab, the Largest and most Equipped with NABH norms, 45 Cycles per Month, Low cost IVF, Micro Manipulators dedicated for IVF Training of PGs, Highest Volume Center for Infertility Surgery and Gynecology Laparoscopy, Myomectomy Surgery & Skill Lab For Laparoscopy Training.

World Class facilities

PET Scan (1st in Madhya Pradesh)
